

Ahmed Raft Mahmoud Ghreeb

Backend Java Developer

+201011831008 | ahmed202205969@gmail.com | linkedin.com/in/ahmed-raft-87894b2a9/ | github.com/AHMEDRAFATO6U | Cairo, Egypt

SUMMARY

Backend Java Software Engineer with hands-on experience in building secure and scalable RESTful APIs using Spring Boot, Spring Security, JWT, and MySQL. Strong foundation in software engineering principles, problem-solving, and database design, with a passion for continuous learning and backend system optimization.

EDUCATION

Faculty of Computer Science and Information Systems, October University

Bachelor's Degree (Undergraduate)

Giza, Egypt

2022 – 2026

EXPERIENCE

Java Back-End Developer Intern

Eraa Soft

Oct 2024 – Oct 2025

Dokki, Cairo

- Developed web applications using Servlet and JSP.
- Used JDBC and Hibernate with Oracle SQL for efficient database access and ORM.
- Built secure backend applications with Spring Boot and Spring Security.
- Developed RESTful APIs and integrated with Angular frontend.
- Implemented Redis caching to improve performance by up to 99%.
- Gained hands-on experience in full-stack integration.

AI Developer Intern

Code Alpha

June 2024 – Sep 2024

Remote

- Completed multiple hands-on AI tasks and mini-projects.

COURSES & CERTIFICATES

- Java Programming Certificate
- Database Fundamentals Certificate – Mahara-Tech
- Java Database Connectivity Certificate – Mahara-Tech
- Spring Boot and Spring Framework (55H) – Udemy
- E-Commerce Project Masterclass (90H) – Udemy
- ICPC Participation Certificate

PROJECTS

Shipment Tracker - Full Stack (Real-Time) | Source Code

Java, Spring Boot, MySQL, JPA, REST APIs, Angular, TypeScript, WebSocket (STOMP), JWT, Spring Security

- Developed a real-time shipment tracking system using WebSockets for live status updates.
- Implemented secure authentication and role-based access control (RBAC).
- Designed and consumed RESTful APIs for shipment and user management.
- Applied global exception handling and standardized API responses.
- Optimized database operations using JPA relationships and query tuning.

E-Commerce Platform | Source Code

Java, Spring Boot, Spring JPA, Payment, Mapper, DTO, RestFull Api,s, Spring Security, JWT, MySQL

- Developed a scalable backend system supporting products, carts, orders, and users.
- Designed secure RESTful APIs for authentication and order processing.
- Implemented Spring Security with JWT-based authentication.

- Managed cart logic, order lifecycle, and discount calculations.
- Integrated Spring Data JPA and Hibernate with MySQL for persistence.

Restaurant Management System | Source Code

Java, Spring Boot, Spring Security, JWT, MySQL

- Built a backend system to manage menus, orders, and reservations.
- Designed clean and scalable RESTful APIs.
- Implemented JWT-based authentication and role-based authorization.
- Integrated Spring Data JPA and Hibernate with MySQL.
- Tested and documented APIs using Postman.

TECHNICAL SKILLS

Programming Languages Java (SE), Java (EE) , C++ , Python

Frameworks & Technologies Spring Core, Spring Boot, Spring Security, Hibernate, JDBC, Servlets, JSP

Developer Tools Git, Docker, Maven, Postman, IntelliJ IDEA, Eclipse, NetBeans, Visual Studio

Core Concepts Object-Oriented Programming (OOP), Data Structures & Algorithms, Exception Handling, SOLID Principles, Design Patterns, UML

Databases MySQL, Oracle Database, SQL, Database Design

SOFT SKILLS

Problem Solving, Active Learning, Communication, Presentation Skills, Initiative, Adaptability, Teamwork

ACHIEVEMENTS

- ICPC Contestant.
- Solved more than 75 problems on Codeforces.

LANGUAGES

- Arabic :Native Speaker
- English :Intermediate (Written Spoken)
